Conex- - | Led by life.

At Conex- -, we know Light. So much so, that we're following it into life.

The attentive life, that needs steady, consistent illumination. The cosy life, that seeks warmth in its brightness. The busy life, that demands highlights and accents. The everyday life, that calls for clarity and visibility. The sensitive life, that requires environmental awareness and sustainability.

Every single phase of your life – and that of millions of other Indians – guides Conex- - to find the perfect kind of light.

From floodlit stadiums, to a single corner of your home, Conex- - fills your life with stylish, green LED light that supports the latest of technology with the greatest of reliability and service. After all, when you work with something that travels at 29,97,92,458 metres per second, you grow accustomed to speed.

Focussed Verticals

- Commercial Lighting (Hotels, Malls, Restaurants, Large format Stores)
- Home Lighting
- Infrastructure Lighting (Airports, Metro and Railways, Street Lights)
- Office Lighting

Hotel Lighting Conex- -s' core focus is to develop functional lighting for the hotel industry. Operational Expenditure Savings, and the least TCO, is the core thought process behind CONEX- -s' research and innovation, to develop functional lighting, specifically in the hotel and hospitality industry. The products that we offer, assure you long and consistent quality of light, with negligible maintenance and 40% guaranteed savings on the electricity bills. The engineering aspect of CONEX- - assures you a longer life via our 5 year commitment on every light we supply.
